ENDORSES ACTION AS TO PUBLICITY

SENATOR WHITEHEAD COMPLI-
MENTS GAZETTE ON ITS IN-
FORMATION PUBLISHED.

AS TO COMMISSION RULE

Matter is One of Importance to Cit-
izens and Gazette Would Be Glad
to Hear From the Public.

Believing that it was due to the citi-
zens of Janesville that they learn all
they could regarding the proposed
rule by commission, in place of a par-
tisan city politics, the Gazette some
weeks ago sent out letters to every
mayor of cities where the plan is al-
ready in operation. The replies to
this letter were published in the pa-
per and commented upon editorially.
The history of the movement to take
civil matters out of the political zone
was also given, as well as the state
law which was passed by the last
legislature relative to the matter.

The following letter comes from
Senator John M. Whitehead, who, as
he writes, presented the bill which
was enacted into a law, in the leg-
islature. The question is one that
should be of vital interest to all citi-
zens and taxpayers. It will doubt-
less be one of the issues of coming
campaigns and it behooves all to be
ready to meet the question with a
full understanding of its merits or
demerits.

With this idea in view the Gazette
would be glad to hear from the gen-
eral public on the matter. Whether
they favor it or think it is not time
to begin an agitation relative to its
adoption. Whether for or against the
plan, the columns of the Gazette will
be opened to communications on this
subject. The Gazette's attitude on
the matter will be voiced through the
editorial columns while the news col-
umns will remain open to the pub-
lic for discussion.

Senator Whitehead writes as fol-
lows:

October 20, 1909.

Editor of Gazette, Janesville, Wis.

Dear Sir: The efforts which your
paper is now making to furnish the
people of this city information with
reference to the commission form of
city government have attracted wide
attention, and I am moved, as one
citizen, to express my appreciation of
your efforts. I had the honor to in-
troduce the bill which became the
law, the adoption of which by this
city you are advocating through your
columns. I was impressed by the in-
terest aroused in the bill throughout
the state while it was under consid-
eration in the legislature. Many letters
came to me from different cities and
visitors at the capital from all parts
of the state called upon me and ex-
pressed their interest in the bill.

City government has become so
complex of late years that we are
confronted with "a condition rather
than a theory," a condition which calls
for immediate action. The commis-
sion form of government is an out-
growth of this condition. Improve-
ment has followed upon its adoption
in many cities in different states. But
like all other human institutions, the
success of the commission depends
upon the kind of men whom the peo-
ple elect to administer the affairs of
the city. Good men will give us good
government under any form; bad men
will give us bad government, no mat-
ter what the law.

The prime merit of this form of gov-
ernment is that the responsibility is
concentrated upon three men. The
people know where to lay the blame
for things that go wrong, and the
officer upon whom the blame falls can-
not escape the burden; so that every
inducement is given to a man to do
his best. It is indispensably neces-
sary to have men of good average
ability and character, as well as sound
integrity. These qualities being sup-
plied in the men whom the city would
elect, this form of government ought
to carry a reasonable assurance of its
successful operation in this city.

Again thanking you of the Gazette
for your interest in the matter, as a
citizen I take this means of giving to
the proposition whatever my support
is worth.

Yours respectfully,

JOHN M. WHITEHEAD.

YOUNG BOYS WHO SHOOT RECKLESSLY

Are Said To Be Unusually Numerous
In the Vicinity of Avalon—Infor-
mal Complaint Filed.

According to complaints made at
the court house yesterday by a resi-
dent who came to town to get a hunt-
ing license, there are numerous small
boys, between the ages of 10 and 15
years, residing in Avalon and vicinity,
who are carrying rifles and terrorizing
the community by taking all sorts of
shooting hazards. The gentleman in
question cited an instance of the young
marksmen standing a little girl up
against a tree and shooting all around
her. According to law a hunting
license may be issued to anyone over
15 years of age and the attorney gen-
eral, in a recent decision, held that a
license might be issued to any child
who has the permission of his par-
ents.

CONCERT SEASON OF APOLLO CLUB WILL OPEN NEXT MONTH

Six of the Finest Attractions Offered
by Four Musical Bureaus
Have Been Booked.

Contracts for what is believed to
be quite the most notable series of
concerts and entertainments ever of-
fered in this community have been
closed by the Apollo club for this sea-
son. According to President George
Parlor the best offerings of four bu-
reaus have been selected and the
club's reserve fund of several hundred
dollars will be used, if necessary, to
provide six of the most memorable en-
tertainments by eminent American
and European artists ever given in
Janesville or cities several times its
size. In order to get them it will be
necessary to allow the musicians,
within certain bounds, to select their
own dates and beyond attempting to
have at least one concert a month, no
effort will be made to fix upon any
particular week or day, as has been
the custom in the past. The club's
own talent, instead of being called
upon to provide programs for entire
evenings, will be expected to appear
with the professionals and thus add
much to the attractiveness and local
appeal of all six of the programs.
Though the contracts have been closed
the dates have not yet been arranged.
The season will probably be opened
the second week in November and the
first few attractions will come in the
following order:

THE STEINDEL TRIO—Headed by
the first cellist of the Theodore Thom-
as orchestra and one of the most fa-
mous groups of instrumentalists tour-
ing the country.

ANNA SHAW FAULKNER—Orig-
inator of the program study class of
the Theodore Thomas orchestra which
has met every Friday during the or-
chestra season for the past eleven
years. She delivers stereopticon lec-
tures on the great operas and music
shrines of the world and is assisted
by the brilliant pianist, Mark E.
Obermiller.

ALEX. ZUKOWSKY—A Russian
violin virtuoso who is coming to this
country early in the new year to ap-
pear at the Manhattan opera-house,
New York, and the Auditorium, Chi-
cago and HANNA WOLFE, and
by critics as one of the greatest of
women pianists. Zukowsky is expect-
ed to create as profound a sensation
in this country as his predecessor,
Rubinik.

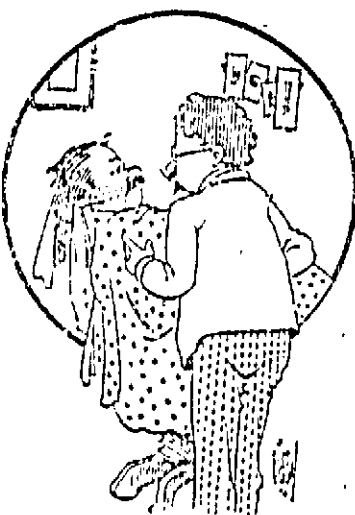

MRS. FRIEDA LANGENDORFF—
Mezzo-soprano lately with the Berlin
and New York Metropolitan opera
companies, who has met with tri-
umphant success on the concert plat-
forms of many of the larger cities of
the United States, and is hailed as a
second Schumann-Heink, and GER-
TRUDE PEPPERCOCK, an English
pianist who has won renown in all
of the European capitals and who
comes to America in January.

PIROSCA CARVER—Concert pi-
anist with the Thomas and New York
orchestras and DAVID
BROGAN one of the finest tenors in
the country.

Right.

A man may not resent an aspersions
against himself, but he will defend the
accuracy of his thermometer to his
last breath.—Topeka Capital.

The following notice is taken from the Terre Haute Tribune of Oct. 10th, and was on
the first page:

A GREAT MUSICAL TREAT.

The people of Terre Haute have never, under any circumstances, had the opportunity
to hear such wonderful music as they have now at the Coliseum.

The Sheehan Grand Opera company at the Coliseum last night entertained a large audi-
ence composed of the music lovers of the city, and all who had the pleasure of hearing them
pronounce it the greatest musical treat they have ever had in any city in America.

This is the highest class attraction that will be in Terre Haute this season and the Trib-
une, unsolicited, takes pleasure in speaking a plain word of praise, and in urging the people
to hear this company tonight. Not only is the Sheehan company worthy of your patronage,
but every music lover is depriving himself or herself of a musical treat, the like of which
they have never before had in Terre Haute.

The Tribune thus urges attendance at this great performance wholly on its own re-
sponsibility, and unsolicited by any person, because we believe that every man, woman and
child will be vastly pleased, highly entertained, and will get a musical treat such as comes
on very rare occasions in a lifetime.

EACO FLOUR

Eaco flour at \$1.05 sack is the cheapest flour you can use.
It will average four or five loaves more to the sack than
other flours—more than four offener than less.

This we KNOW by actual test.

Try for yourself. If it isn't so we will give you a sack for
nothing.

This is a common argument, everybody uses it, but when it
is true it is the last word.

Why?

If this is true about Eaco, why?

The reason is this:

By a process of elimination in milling everything but the
most desirable part of the heart of the wheat is removed, leav-
ing a larger percentage gluten than can be obtained by ordi-
nary methods.

Gluten takes more water, absorbs it like a sponge, swells
into a larger, heavier loaf.

It takes about one-fifth more wheat to make a barrel of this
kind of flour, but when you do get it you get more out of it.

When properly milled and sifted through and immense
sieve of the finest silk sifters we have a flour that vies with
Swansdown as a pastry flour. Possesses that nutty, sweet,
wheaty taste to a very marked degree. Works much easier
and quicker. And especially to be remembered is the fact that

**Eaco Flour Is
Clean Flour**

the wheat kernels all being shaved and washed in pure ar-
tesian water before being milled into this superb flour.
It's to your interest to insist on Eaco.

TWO TEAMS TO MEET IN ANNUAL CONTEST

Deloit College and Lake Forest Elevens Clash Tomorrow—Other News of Deloit.

[SPECIAL TO THE GAZETTE.] Deloit, Oct. 22.—Deloit College will meet Lake Forest, Ill., in the annual football game tomorrow. The college team is considered to be the strongest it has been this season. It has no cripples and has profited well from the two games already played and won. Coach Connors has given the men hard work and has succeeded in inspiring confidence in the squad so that they will enter the game tomorrow in the best of spirits. The game will be called at 3 o'clock.

The remains of David Baker, a former resident of this city and proprietor of lumber yards in Deloit and Whitewater, were brought to Rockton for burial today. He has made his

home in the south for several years. Earl Tifor, of the high school team, had an arm broken in a scrimmage last night.

ERECT SHED AT CHURCH FOR HORSES TO STAND UNDER

Members of Afton Church Held Bee to Erect Structure for Protection of Animals, SPECIAL TO THE GAZETTE.

Afton, Oct. 22.—A good shed for the horses to stand in during the winter was erected on the property of the Baptist church last Tuesday. A "Bee" was held, about twenty participating in it, and proceeding under the direction of the committee of three composed of John C. Eddy, George W. Hobbs, and George C. Anteloff.

The Ladies' Aid society served an excellent dinner to the men at noon, the tables being spread in the basement.

At the annual meeting of the Ladies' Aid society, held at the church last Tuesday afternoon, the following officers were elected for the coming year: President, Mrs. Arthur Wood; vice-president, Mrs. W. R. Kilmer; secretary, Miss Ella C. Uehling; treasurer, Mrs. John Brinkman.

A hallows' social is to be held at the home of the president, Mrs. Wood, next Friday evening, to which all are cordially invited.

Mr. and Mrs. J. W. Clarke and family have moved into the village and will occupy the old Waite home for the winter. In the spring they will move onto their farm, at present occupied by August Hantsch.

W. S. Barnhart has moved from the hotel place to the hotel house, formerly occupied by Alfred Thurlaff.

LITTLE MILWAUKEE GIRL RECOVERING FROM SEVERE INJURY SHE SUSTAINED

Fell From Second Story Window to Cement Walk And Fractured Her Skull.

Little three and a half year old Cecelia Marshall, who fell from a second story window to the hard pavement below, where she was found by her agonized mother, is going to get well. The little tot was playing in a window and lost her balance and fell out.

Her life was despaired of at first, but the patient little girl has never complained, only asking to be rocked in a specially provided rocking chair.

Dr. H. D. Sykes, a former Janesville resident, has been the attending physician and the little girl's recovery is considered remarkable.

CRONIN CASE WAS ON TRIAL TODAY

Administratrix of Estate Told of Her Efforts to Protect Her Mother's Interests.

Before Judge Jay Lyon in county court the examination on witnesses in the action brought against Agnes Cronin, administratrix of the estate of the late Michael Cronin, to show cause why the \$3,055 in gold should not be inventoried along with the other property, was in progress throughout the day.

On the stand this afternoon, in her testimony she denied the various accusations and insinuations made against her by sisters and brothers; insisted that she knew nothing about any statement giving the supposed amount of her father's estate which appeared in the petition for an administrator signed by her mother and her brother, John; and contradicted a report to the effect that she had driven her sister, Mrs. Dely, out of the house on a certain evening subsequent to the murder.

With reference to the latter incident she said that Mrs. Dely appeared at the house in company with Officer Mason, and declared, upon leaving, that she had seen enough to send Agnes to prison for 20 years. She had replied that if it were forty years it wouldn't make any difference—that she was going to care for her mother as was taken care of. She admitted having tried to persuade her sister and brothers to allow the mother to have, unmolested, the use of the interest on the \$3,055 during her lifetime and having assured them that the principal could be divided equally in event of Mrs. Cronin's death.

MR. AND MRS. ELMER WARNER WERE TENDERED A SURPRISE

By Janesville Rebekah Lodge No. 171 on the Occasion of Their 25th Wedding Anniversary.

At the regular meeting of Janesville Rebekah Lodge No. 171, held last evening, the members carried out a pleasant surprise for Mr. and Mrs. Elmer Warner, the occasion being their 25th wedding anniversary. Delicious refreshments were served and during the progress of the festivities J. F. Carle, in behalf of the members, presented Mr. and Mrs. Warner with some beautiful silver pieces as slight tokens of the esteem in which they are held.

ALBION MAN LEFT A VERY LARGE ESTATE

Nearly Three Hundred Thousand Dollars Left to His Heirs by Thomas Thronson.

The filing of the administrator's bonds in the Dane county probate court last week discloses the fact that the late Thos. Thronson of Albion left one of the largest estates ever administered in the county. It is claimed that the bond was the largest ever required by the court. Henry Thronson, who has qualified as administrator, was ordered to give bond of \$275,000. The estate is valued at \$349,218.65. The sum of \$211,654.63 is represented in the personal property, \$24,100 in real estate in Wisconsin, and \$13,464 in real estate in Iowa. Following is a list of those who signed the bond of Henry Thronson as sureties: Robt. Dow, Jr., \$10,000 each; Levl. Holton, \$10,000 each; Robt. Dow, Sr., \$5,000; Andrew Johnson, \$5,000; Henry Ebbott, \$5,000; T. B. Earle and T. A. Ellington, \$15,000 each; John R. Johnson, Stephen Haight, Cornelius Nelson, J. L. Holton, Michael Conway, Peter Ellington, Geo. Diekhoff, Geo. Vickors, H. T. Sweeney, Henry Johnson and C. E. Sweeney, \$10,000 each; C. C. Hederman, \$20,000; O. C. Lee, \$30,000.

JANESVILLE HIGHVS. WHITEWATER TEAM

High School Eleven Will Battle for Honors on Athletic Field Tomorrow Afternoon.

Tomorrow afternoon on the home grounds the Janesville High school football eleven will play the strong team from the Whitewater High school. The boys are anxious to redress some of the glory they have lost in the preceding games and overcome the hard luck which followed them last Saturday. They have been putting in hard practice all week and are in the field for the battle. The Whitewater team is an "unknown" to them, but they feel that if they are any where near their size and weight they can make the visitors bite the dust or else struggle hard for the honors. The Saturday following they will go to Stoughton to play Stoughton high school.

ALBION MAN LEFT A VERY LARGE ESTATE

Nearly Three Hundred Thousand Dollars Left to His Heirs by Thomas Thronson.

The filing of the administrator's bonds in the Dane county probate court last week discloses the fact that the late Thos. Thronson of Albion left one of the largest estates ever administered in the county. It is claimed that the bond was the largest ever required by the court. Henry Thronson, who has qualified as administrator, was ordered to give bond of \$275,000. The estate is valued at \$349,218.65. The sum of \$211,654.63 is represented in the personal property, \$24,100 in real estate in Wisconsin, and \$13,464 in real estate in Iowa. Following is a list of those who signed the bond of Henry Thronson as sureties: Robt. Dow, Jr., \$10,000 each; Levl. Holton, \$10,000 each; Robt. Dow, Sr., \$5,000; Andrew Johnson, \$5,000; Henry Ebbott, \$5,000; T. B. Earle and T. A. Ellington, \$15,000 each; John R. Johnson, Stephen Haight, Cornelius Nelson, J. L. Holton, Michael Conway, Peter Ellington, Geo. Diekhoff, Geo. Vickors, H. T. Sweeney, Henry Johnson and C. E. Sweeney, \$10,000 each; C. C. Hederman, \$20,000; O. C. Lee, \$30,000.

Satisfied

A man was waiting for me at the office door this morning with this question, "Did you really pull teeth without pain?"

"Come in," I answered, "and we will see about it."

"You'd better not hurt," said he, "I'm a terror and a fight."

Of course this case called for particular care, but as is usual in my work, the tooth came out all O. K.

As the patient left the room I asked, "Well, do I state the truth?"

"Yes," he answered, "you didn't hurt me a bit. You are all right."

Instances like this prompt thinking people to bring their work to me. They are sure not to be disappointed.

BIRCH RESIGNS AS PHYSICAL DIRECTOR OF THE ASSOCIATION

Announces His Intention of Leaving
Y. M. C. A. Work and Going
Into Business.

Physical Director F. L. Birch of the Y. M. C. A. has announced his intention of resigning his position and leaving the association work. The announcement was made last evening to the Senior gymnasium class and caused considerable surprise and regret that Mr. Birch should be lost to the work. He stated, however, that he would remain in the city and engage in business.

Mr. Birch refused to discuss the matter, leaving that to the secretary, J. C. Kline, to make public, and Mr. Kline was inclined to be reticent concerning it. He stated, however, that the matter had not as yet been conveyed to the board of directors, a written resignation not having been received, but that a meeting would probably be held soon to take up the matter. According to his statement, Mr. Birch will enter the life insurance business. The question of a successor to Mr. Birch can not be taken up until the board of directors hold their meeting.

STORM KILLED TEN THOUSAND

BENGAL, INDIA, SWEEP BY
MOST TERRIFIC STORM
IN HISTORY.

MANY TOWNS ARE WRECKED

Loss of Life Was Caused Mostly by
Collapse of Houses and Temples—
Destruction of Wires Delays Re-
port of Disaster.

London, Oct. 22.—In a terrific storm which swept the plains in the delta of the Ganges and Brahmaputra, in Bengal, India, ten thousand persons are said to have perished, according to the dispatches received here from Calcutta.

The storm followed the close of the rainy season—from June to September—and destroyed towns and villages in an area of 187,377 square miles, in which a population of 400 persons to the square mile.

It swept up the delta and over the plains with tropical violence, although half of the province of Bengal lies outside of the torrid zone.

Die in Ruins of Houses.
The town of Goalanda, at the junction of the main channels, at the Ganges and Brahmaputra, about 150 miles from Calcutta, was wrecked. Many other small towns and villages are reported to have been partly or completely destroyed.

The loss was particularly heavy among river craft. The slimy native boats with which the Ganges swarms are said to have been lost in scores. Several steamboats also are reported to have been sunk.

The loss of life was occasioned, mainly by the collapse of houses and temples in the towns and villages and by the river wrecks.

The government telegraphic lines were down in all directions, and today for the first time since the storm, news from the stricken districts is being received. The panic among the natives was so great that no attempts were made to reach Calcutta by couriers.

Score of Towns Razed.

Advices state that scores of towns within the storm's path were razed. Natives made no attempt to flee to the open country, but remained panic-stricken where the storms first burst upon them.

Relief plans are being formed and work on the telegraph lines and wrecked railroad bed is being rushed, so that exact information may be obtained and supplies rushed to the thousands of sufferers.

This region has been ravaged by plagues repeatedly, cholera being the greatest scourge. Famine has decimated the population twice in the last 50 years, once in 1865-66, and again in 1873-74.

MURDER FOLLOWS GARY RIOTS

Four Days of Political Riots Resulted
in Many Slights.

Chicago, Oct. 22.—One murder, two riots, scores of street fights between citizens and the severance of three business partnerships is the result of four days of intense political strife at Gary, Ind., attendant upon the election of the first mayor of that young municipality.

The mutilated body of Roda Ivanich, one of the participants in the bloody primary riot, was found lying in the middle of one of Gary's principal streets. Ivanich had been shot with a revolver through the back of the head. His face was then beaten into an almost unrecognizable mass.

Discovery of the murder resulted in the arrest of Iosiflaw Hureklich, 31 years old, and Bob Mulchon, 31 years old. They are being held as suspects.

Following closely upon the disclosure of the Ivanich murder it was announced that three business firms had dissolved partnerships because of animosities growing out of the bitter mayoralty campaign.

WEALTHY CHURCHMAN MISSING.

Prominent Pittsburgh Disappears—
Police Throughout Country Notified.

Pittsburgh, Pa., Oct. 22.—Police authorities from one end of the country to the other were notified of the mysterious disappearance of William C. Lilley, one of the wealthy retired business men of Pittsburgh, who was known from coast to coast for his connection in Presbyterian temperance and church work. He is an elder in the First Presbyterian church of Pittsburgh, and has been missing three weeks.

The fact of his disappearance was made public in connection with the serious illness of a young woman member of the church to whom Elder Lilley was to have been married. She has not heard from him since he disappeared.

23 Indicted in Liquor Cases.

Washington, Oct. 22.—Twenty-three persons who have been furnishing "fire water" to Indians in Wisconsin have been indicted by the federal grand jury at Milwaukee, according to the report of T. H. Wilson, superintendent of the Indian school at Kenosha.

Santa Fe to Have Double Track.

San Bernardino, Cal., Oct. 22.—Double-tracking of the main line of the Santa Fe road from Los Angeles to Chicago will be begun within 60 days. It is reported on good authority that crews will be put at work between Ash Fork and Williams, Ariz.

Link and Pin

Chicago, Milwaukee and St. Paul Ry. Traffic was delayed at Stoughton yesterday afternoon when a car of sugar beets was derailed while being switched and blocked to the main line. The Chicago passenger, number 140, was held up for over an hour.

Engineer Mead returned yesterday from Rockford where he has been relieving Engineer Shively, and went to work this morning on engine 843, which is in service at the sugar beet factory.

Operator J. F. Millard will begin work tomorrow on the second switch in place of Burley Allen, who will return to his old position on the third track.

Switchman Palars returned to work this morning after a short layoff.

Lincoln M. F. Cook went to Bardwell this morning to repair the wires in that vicinity.

Engineer Barker and Fireman Doolley returned from Madison this morning at 3:15 on an extra with engine 1762.

Engineer McCarthy and Fireman Hummel are on a work train today.

Engineer Kennan and Fireman L. Rine had the sugar beet special yesterday afternoon with Switchman Nolan.

Chicago and North-Western Ry. Without exception, railroad men concur in the statement that this fall is the busiest season that the road has ever experienced. Trains are being sent out and are arriving in the yards almost as fast as they can be released from block or made up in the yards.

Yardmaster David Griffin is confined to his home with a severe illness. Switchman Fraunfelder is taking his place today.

The regular crew, Engineer Spohn and Fireman Coen, went out on 588 last night. Engineer Wilke expects to displace Fireman Coen tomorrow morning.

Engineer Cole took Townsend's place on the six o'clock switch-engine last night.

Engineer Bondy and Fireman Mott took engine 1416 to Harbador, Night, this morning at 10:45.

Switchman John Clough is laying off, sick.

Fireman Dalton took Dispatcher-Holper Rasmussen's place last night, but was forced to lay off at midnight on account of illness.

Engineer Novins double-headed engine 514 with engine 1304.

Fireman Dille, who made his first trip on the road in the northern Wisconsin pool last night, is the fifth of that name, all relatives, who are working on the Northern Wisconsin division at present.

OBITUARY.

Mrs. Ellen Whalen, widow of the late James Whalen, died yesterday afternoon at five o'clock at her home on Eastern avenue. Mrs. Whalen was eighty-four years of age and was one of the early residents of Rock county, having come to this state from Ireland, with her husband in 1855. Her husband passed away about two years ago. Besides a host of friends, the deceased leaves a son, in whom her loss is a daughter, Miss Ellen Whalen. Notice of the funeral will be given later.

Miss Mary Field. The obsequies over the remains of the late Miss Mary Field were held this afternoon at two o'clock from the home of Miss Katherine Field, 408 North Jackson street. The Rev. J. W. Laughlin conducted the services in the presence of a host of the relatives and friends of the deceased. The floral offerings were profuse and very beautiful. Relatives acted as undertakers. Interment was in Oak Hill cemetery.

William O'Neil. The funeral of William O'Neil will be held tomorrow morning at nine o'clock.

TO PURGE THE JURY SYSTEM

GRAND JURY JOINS HANDS WITH
STATE'S ATTORNEY OF
CHICAGO.

WILL URGE JUDGES TO ACT

Inquisitorial Body Appalled by the
Evidence Submitted—Will Urge
That Office of Jury Commissioner
Be Cleaned Out.

Chicago, Oct. 22.—State's Attorney Scandal was strengthened to a considerable extent when the October grand jury joined him in urging all the judges in Cook county courts to clean out the office of the county commissioner, empty completely of its contents the box from which venemous are drawn and to make such other changes as will rid that office of all danger and opportunity of further jury tampering. The action of the grand jury created considerable of a stir in court circles.

Some of the grand jurors who heard the testimony of the various employees of the office of the jury commissioner, in which there were many contradictions, inconsistencies and shifting of blame from one employee to another, urged that wholesale indictments charging malfeasance in office and tampering with juries be voted without waiting to see what the judges would do.

Report to Judges Urged.

State's Attorney Wayman, with the foreman of the grand jury and some other members of the body, suggested that the whole matter, with a full report of what took place before the grand jury and with recommendations from that body and from the state's attorney, be put before the judges, to give them an opportunity to take action.

It was learned that the members of the October grand jury are aroused fully as much as the state's attorney over the disclosures of the bogus cards, illegal drawings and conditions in the office of the jury commissioner which under cross-examination by State's Attorney Wayman employees of the jury commissioner admitted.

Takes Up Northwestern Case.

Mr. Wayman has now openly taken up the investigation of circumstances surrounding the condemnation suits of the Chicago & Northwestern railroads for property used for its new station site. A subpoena for F. Walter Altper, who, until October 1, was chief investigator in the trial department of the road, and who was formerly an investigator in the law department of the city of Chicago, has been issued, and also one for Marshall P. Hanagan, who was foreman of the jury which tried the condemnation cases.

CONDEMNATION RAISES PRICES

Throwing Out of Meat Unfit for Food
Increases Its Cost.

Washington, Oct. 22.—"More meat is condemned as unfit for human food in the United States than in any other country on God's green earth. That fact may account, in a contributory way, for the present high prices of meat."

This statement was made by a responsible official of the department of agriculture in connection with the charges made at the convention of the American Public Health association now in session at Richmond, Va. The charges were voiced by Mrs. Caroline Bartlett Crane of Kalamazoo, Mich., the allegations being that the inspectors of the bureau of animal industry in many cases were incompetent and careless.

"As a matter of fact," continued the official, "no country in the world is so careful as the United States in the examination of meats intended to be used as food. 'We know nothing but about Mrs. Crane's charges, but whatever they are and against whomsoever they may be directed, they will be investigated thoroughly, for only by such thorough inquiry are we able to maintain the high standard of excellence of American packing-house products.'"

NEW OFFICE NEARLY COMPLETED

Finished Executive Apartments Are
Awaiting the Painting.

Washington, Oct. 22.—After three months, with shifts of workmen busy every hour of the day and night, the new addition to the executive offices of the White House is almost completed, and in another week the building will be turned over to Secretary Fred Carpenter and the staff of the president, who, during the alterations, have used the basement of the White House proper as their offices.

All work has been completed except painting. The new offices will be in shape for the president when he gets back from his tour in November. He will find his new chamber fitted out to a large extent with wadded from the Philippines awaiting him.

Bomb Is Exploded at Munich.

Munich, Germany, Oct. 22.—A powerful bomb was exploded in the street here. The pavement was torn up and neighboring buildings were damaged. No person was injured. There is no explanation of the incident.

Dozen Buildings Burned.
Mapleton, Pa., Oct. 22.—Nearly a dozen buildings, valued at \$200,000, were burned here. Among the buildings destroyed were the Clarendon hotel, the general store of L. W. Bell and are Mapleton item office.

Heart to Heart Talks.

By EDWIN A. NYE.

OPEN YOUR EYES.

How much can you see?
Your oculist will tell you that you can see but 50 per cent of the things at which you look.

But, according to Ruskin, unless you are a genius you cannot see even that much.

Ruskin says that for every hundred men who hear only one can speak, for every hundred who can speak only one can think and for every hundred who can think only one can see.

Which is Ruskin's way of saying that most people are blind to the beauties of nature and art all about them.

How much do you see?
Your eyes may be good and yet you may see but little. You really see with your brain—your "mind's eye."

Your eyes are the mere instruments, the means to the end. The faculty of observation is in your brain.

You were born blind.
Ever think of that? When you came into the world you had eyes, but you saw not. You had to learn how to see. You were really blind until your little brain got the faculty of observation.

We speak of schools for the blind. All schools are for the blind in a sense. Schools teach one to see things as they are. When you started to school you could see objects clearly enough, but you saw them individually. You did not understand how they were related to each other. You did not see things as a whole until the school taught you.

Education?
All there is in education is in the faculty of seeing things as they are. Add to this the ability to express what you see and you have all the schools can teach you.

You can educate yourself by observing things and reasoning back to their causes.

That is why many who have not had the advantage of schools have been able to educate themselves. They have trained themselves to observe and think.

Open your eyes. Do not go blindly through all the world of beauty and of thought.

Learn how to see—and what to see. Ten thousand things worth seeing are about you. Select those that appeal to you as your while. See them as they are.

There is enough in one acre of pasture lot or of forest land to keep an immortal soul busy a thousand years.

SHORTENING THE ATLANTIC TRIP.

Map showing the new route via Fishguard, which will materially reduce the commercial activities of Liverpool and will shorten the trans-Atlantic voyage by at least three hours. London—Not satisfied with having done this will eventually bring Paris well within five days from New York.

well within five days from New York. Twenty-five million dollars or more are to be spent in improving the harbor and the result will be far-reaching. It means that eventually Fishguard, which is at present only a small village, will be the terminal of all passenger and freight traffic rather than Liverpool or London. Through express trains will connect with Dover where fast ships will convey the passengers to the continent. Paris will then be only five days distant from New York.

Doing Little Things Well—A Characteristic of This Store

A small purchase which may seem small to a merchant is often of great importance to the purchaser and so we care for the small purchase in the same satisfactory manner as for the larger ones. Our stocks of small articles receive the same careful attention as do our stocks of more important things. You get the same treatment here when making a small purchase that the purchaser of many dollars worth of goods gets.

Then again if you are dissatisfied with your purchase no matter how small we expect you to acquaint us with your dissatisfaction.

Don't think for one instant that the matter is "too small" to be brought to our attention. You are doing yourself and us an injustice if you allow a matter of this kind to pass unnoted to us. This is our position in the matter of small things.

Just now we wish to call your attention to a few of the new arrivals. Things that perhaps you have not given much thought to or still, did not know just what you wanted or what assortments we carried for you to select from. Here's a hint of articles and prices too that should demand the attention of most every woman. Of course these are not all of the new things we have this fall, but we wish particularly to bring these before you:

New Silk Waists

Here are two numbers that are certainly worth special mention. They are really beautiful creations in the line of shirt waists, out of the ordinary too.

No. 1. Fancy shipped silk, large side pleats, large cord ornaments on Copenhagen, Brown, Navy, and Green.....\$7.00

No. 2. Extra quality tuckered silk, accorded pleated front, mackel back, and cross tucked sleeves. Colors are Wisteria, Old Rose, and Prussian Blue...\$6.00 each

Silk Jerseys

Takes the place of shirt waist, worn with pleated skirt, made of fine silk Jersey cloth, tucked panel in front and back, button at side, tight fitting sleeves, hip length, in Wisteria, Olive, Copenhagen and Black, \$10.00 each.

New Kimonos

Undoubtedly we are headquarters for these things as we have a collection embodying everything that is desirable and dependable. Warm fleeced kimonos. Kimonos of pretty crepe, or of dainty silk. Black, Tan, Brown, Green, Red, Navy and Black, can all be found in this vast assortment.

Silk kimonos, Tan ground, oriental figure, satin trimmed, tucked yoke, large Jap sleeves.....\$6.00

Lt. Blue ground, oriental figure, satin trimmed, short sleeve, shirred yoke.....\$7.50

Tan ground Jap figure, trimmed with bands of red satin, inverted box pleat back, large Jap neck sleeve.....\$15.00

Fleeced and crepe kimonos, duckling fleeced, shirred yoke, large collar torchon lace each.

Sweaters--Ladies and Misses

Such a demand has been made for sweaters this fall that the mills cannot begin to supply the trade. We have been unusually fortunate in receiving our shipments and are accordingly in a position to supply your wants without trouble.

Military style, made on street military lines, comes in Brown, Green, Blue and White.....\$4.50

Bradley Coats and Jackets in most all styles, made from the short blouse effect to the long ¾ length. Colors: White, Navy, Coffee, Oxford, Maroon and Scarlet. Some have collars that match the sweater body, some of pretty contrasting colors \$2.75 to \$6.00 each.

FOR MISSES AND CHILDREN.
2 years to 16 years.
We are showing five styles, in Red, Oxford, Navy and White, at 75c, \$1.00, \$1.75 \$2.00 and \$2.50.

Black Silk Petticoats

Extra fine quality taffeta, soft finish, cut large and full, finely tailored. In fact made with same care as are silk dress skirts, drop non-dust catching flounce, set perfectly over hips. These are very specially priced at \$5.00, \$6.50 and \$8.50 each.

EMINENT SPEAKERS TALK ON WATERWAYS

Prominent Men Of Louisiana and Texas Gave Addresses At Convention Today.

Corpus Christi, Texas, Oct. 22.—The presence of eminent speakers on the program resulted in a largely increased attendance at the sessions of this, the second day of the annual meeting of the Interstate Inland Waterway League. Among the speakers and their topics were the following: "The Importance of Water Transportation to the Full Development of Our Country's Resources," R. E. Milling, Franklin, La.; "The State's Relation to Inland Waterways," A. N. Davidson, lieutenant governor of Texas; "The Subsidary Ports of the Intercoastal Canal," Warren B. Reed, New Orleans.

Tomorrow the delegates will take a boat trip through Turtle Cove, the first section of the Intercoastal Canal to be completed, to Arkansas Pass, where the Federal government is expending large sums of money preliminary to the development of another deep water port on the Texas coast.

than the matter of any statement Mr. Crane may have made. He even hints that congressional investigation will have to be inaugurated before the many friends of Mr. Crane will be satisfied.

Mr. Fisher became a national figure as the leader of civic improvements in the fight for national conservation. (SPECIAL TO THE GAZETTE.)

MAY BE FIRST CONGRESS-WOMAN.
MRS. RUTH BRYAN LEAVITT, COLORADO CANDIDATE FOR A SEAT IN CONGRESS.

Denver, Col.—A new word in the American language will have to be coined to meet the occasion if the charming daughter of William Jennings Bryan is elected to congress. This word will be "congresswoman." It is not a difficult word to coin and will be taken up by the American people without preceptible effort. And yet, viewed in the history of ages it is a most important word.

Mrs. Leavitt has not yet been elected nor even nominated, but she is popular in many sections of the state and has gathered to herself considerable strength. She has formally announced her candidacy for the nomination for congress from the First District of Colorado.

She has dreams of making the nation's legislative hall, where her father once sat, ring with her melodious voice. Former Senator Patterson has given his promise that if the Democratic party of the state shall nominate a woman for congress he will use his influence for her. Mr. Bryan has given his consent. Mrs. Leavitt is president of the Jane Jefferson club. All is said to be harmonious in the club, but there are some members who say that Mrs. Leavitt is so young she ought to wait several years.

Walter L. Fisher, Fighting For Charles R. Crane.

New York City—Walter L. Fisher, the Chicago reformer who enjoyed such intimate relations with President Taft's predecessor, is up in arms against the justice department for what he terms an injustice to Mr. Crane in connection with his recall from his appointment to the diplomatic post at China. As soon as Mr. Crane left Washington he came to Mr. Fisher here and the two have been in consultation.

Fisher makes no bones of stating that the trouble is more far-reaching

No Wonder the Young Men Like Golden Eagle Clothing

Every season brings more of the young men here for their new clothing. They are our warmest critics, but the fact they keep on coming and bring others with them, makes us think after all they like the clothes we sell. We try hard to please them, to put individuality into our suits and make them snappy, without overdoing the thing.

PRICES \$10 TO \$30

Selling a \$3 hat isn't our boast. It's selling a hat that calls for the IMPERIAL at \$2 that counts. We could make more profit selling almost any other hat at \$3 but we couldn't make as many friends.

The week from Oct. 25 to Oct. 30
is to be devoted to giving our

Corset Stock Publicity

In this event we have filled our stock to overflowing with all the several lines that we control

First and foremost are the well known Gossard front lacing Corsets, the highest grade Corset made, and their representative, Mrs. E. B. Diltz, will be with us during the entire week to fit and advise those ladies who wish to learn about the finest form building Corset in the world.

We carry in stock of these Corsets the following models:

114 L 114 F 114 M
111 F 110 A 111 S
111 M 111 L 111 A

Together with all accessories that go to the building-up of the figure

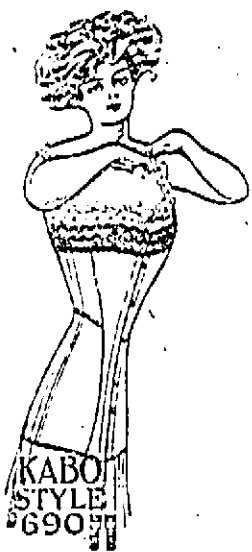

Our stock also shows the well known "Nemo" Corsets, of which we are the exclusive agents in Janesville. All the advertised Models are to be found in our stock. Styles 320, 405, 520, 314, 312, 318, 160, 403. We have got them all and they will merit your attention.

ROBE CORSETS, the popular line of high grade medium priced Corsets; an elegant line of styles, and a Corset that we control for Janesville. All the best selling numbers in this line are here; styles 665, 673, 675, 680, 681, 690, 692, 721, 725, 873, 1011, 398.

We also have on sale the best styles and numbers of the following popular lines: R-G, P-N, Warner, Gage-Downs, Ferris Waist, Glove Fitting and many other lines.

Come during CORSET WEEK and fit yourself to a good Corset, and you will never again buy any other kind.

The Corset Event of the Season

Next week will be given over entirely to our Fall Corset Opening. As a line which is notable for the scope and class of the corsets shown, there are none that we can recommend in the unqualified terms that we do

THE Gossard CORSETS

"They Lace In Front"

An expert corsetiere, trained in the Gossard "New School" of corset design, will be in attendance to show the superior features of Gossard front-laced corsets.

We extend a cordial invitation to every woman who is interested in the corset styles for Fall, to meet Mrs. E. B. Diltz and discuss the corset question with her. If, in the past, you have had any doubts as to the corset which would do the most for your figure, a fitting with one of the Gossard models will put them to rest.

If you have never worn a Gossard you have yet to learn what the perfect corset union of beauty and hygiene means to the wearer.

There is a model for YOU. Exactly right for YOU. Be fitted to it and you will be delighted with the results. Gossard corsets give the supple figure and the long, lithe lines demanded by the season's fashions. They support instead of depressing the abdominal organs, that is why physicians recommend them. They impart the classic, sculptured back. Anyone who knows the Gossard corset can tell the Gossard wearer by the back, at a glance.

The front-lacing is convenient and sensible. You can stand before your mirror and adjust your corset while you are putting it on.

This season's Gossard models are the product of the "New School of corset design," which means that every seam, gore and bone is adjusted with that precision which is necessary in adjusting the balance wheel of a fine watch.

Gossard corsets are made of the finest materials. Every detail is as nearly perfect as human ingenuity will permit. The materials are selected with great care for their textile strength and the Gossard corset will outwear two or three ordinary corsets.

All Gossard corsets are boned with "ELECTROBONE" the basis of which is the highest quality high-carbon, non-breakable, clock. Trade Mark spring steel, perfectly flat and resilient; guaranteed rust-proof, and the best boning material used in corsets at any price.

Although Mrs. E. B. Diltz will be here all next week, we advise you to come Monday if you possibly can

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

COMPETITION, as everyone knows, was never keener than it is today.

The professions and trades, especially those open to women, were never more keenly.

But even now there's one place in every profession and trade where there's plenty of room—and that's at the top.

A girl whose parents wanted her to study stenography came to me the other day complaining that she did not want to be a stenographer because she knew a great many girls who had worked for years for ten and eight and even six dollars a week, and she didn't think that was enough.

"Yes," I answered, "So do I, but also a knowledge of a few who get \$20 and \$25 and even \$30 a week."

"But there are so few places of that kind," she protested.

"A great many more than there are girls to fill them," I assured her.

And then in answer to her look of incredulity I told her of a girl I once had with a man who hires hundreds of stenographers every year.

"It's easy enough to get plenty of ten- and twelve-dollar girls for the lower positions," he said; "the trouble is to get the \$20 girls. You know we have a good many responsible positions and we need that kind of girls to fill them, but you've no idea how hard they are to get. Of course, we all want some of the lower-priced girls, but not near enough. Why, last year we sent to Washington (the firm has its headquarters in Boston) for a girl to fill an important position, simply because we could not get one any nearer home."

"I can tell you there's a mighty good opening anywhere for the girl who wants to make herself something more than a mediocre stenographer."

And not only for the girl who wants to make herself more than a mediocre stenographer, but for the girl who wants to be more than mediocre at anything.

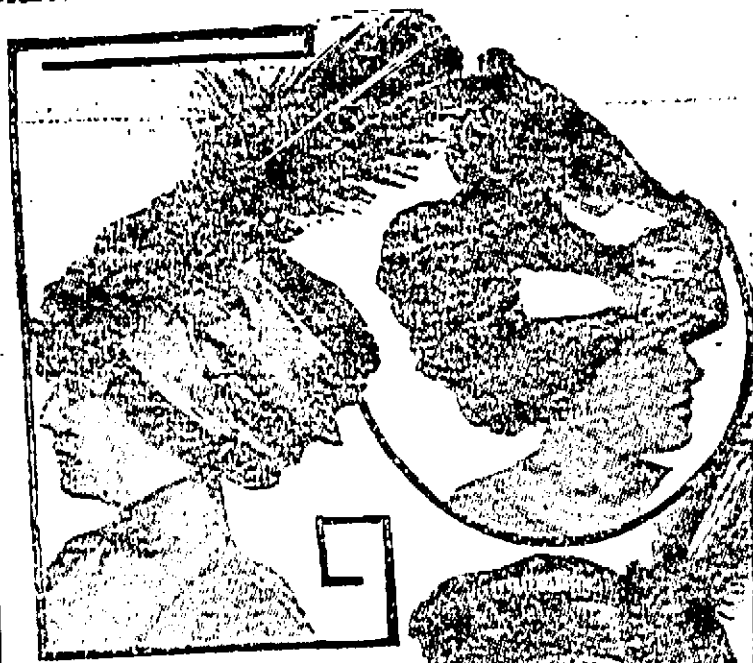

It's the same, for instance, in teaching. I once heard the head of a teacher's agency say that it was the \$1,000 and \$1,200 positions that he had the most trouble in filling.

"It's economy to pay high and get good men," is the slogan of most of the progressive business firms.

It is a good thing if you have an aptitude for any of them to enter some of the less crowded professions. Or, if you have the capital and ability, it is good to take up some business that has not yet been extensively exploited.

But if your aptitude and the circumstances make it better to enter some more common and more crowded profession or business, don't be wailing to be less successful on that account.

Only go into it remembering always that there's plenty of room at the top and making up your mind always that that room is for you.

ANNUAL GATHERINGS OF PRESBYTERIANS

175 Members of Congregation Partook of Banquet at Church Parlors Last Evening.

One hundred and seventy-five members of the Presbyterian church partook of the annual congregational supper last evening. The banquet was held in the church parlors and was followed by an informal discussion of the financial plans for the organization. The discussion was led by L. F. Wortendyke.

PRESIDENT TAFT SPEAKS AT THE TOWN OF TAFT

Talks to Several Hundred of His Brother's Farm Hands and Their Families.

Gregory, Tex., Oct. 22.—Several hundred farm hands employed on C. P. Taft's ranch, together with their wives and children, assembled in the big schoolhouse in the town of Taft and were addressed by President W. H. Taft. The people who form the population of the village named after the president gave him a warm welcome and during the course of his speech were liberal with their applause. After he had completed his address the president walked among his auditors, who were clothed in their working garments, and chatted about the crops, the weather and the children.

The president never forgot the children, and he took occasion to compliment the town of Taft as one place where no suspicion in regard to race subsisted.

At the school house the president was introduced by his brother, Charles P. Taft, who declared the president had expressed doubt that such a town as Taft or such a ranch existed, and he has been invited to return to Washington this way in order that he might be shown around.

On his way to Taft the president stopped in at the cotton gin and watched its operations with much interest. Next the president was taken to the creamery, where he ate a dish of ice cream, and he had a look at the abattoir, which was not in use, however.

During the morning the president had played 18 holes of golf with Robert Connerly of Austin, the reputed champion of Texas, who laid out the links on the Taft place. The president invited Mr. Connerly down "to get a drink," but the young Texan led his distinguished opponent to the very first hole.

To-day the president will break into his four days' vacation long enough to go over to Corpus Christi on the revenue cutter Winona to speak before the Inland Waterways association. This evening he will leave for Houston and Dallas.

SPAN OF LIFE IS 150 YEARS.

Prof. Fisher Declares Longevity of Man Increases as Science Advances.

New York, Oct. 22.—The normal span of human life is 150 years, according to a remarkable study by Prof. Irving Fisher of Yale, which has just been published by the National conservation commission at Washington. Prof. Fisher shows that the length of man's existence is steadily growing, both in this country and Europe, with the progress of science, sanitation and social betterment, and declares that the span of 150 years will not long be impossible of attainment.

The average length of life has been steadily growing, according to Prof. Fisher's statistics. At the end of the seventeenth century it was four years longer than at the beginning. At the end of the eighteenth century another four years had been added to the average, and in the first three-quarters of the nineteenth century the length of life increased at the rate of nine years to the century.

In the last generation the increase was greater. In Massachusetts the present rate of increase is about fourteen years a century, while in Europe as a whole the rate of increase is about seventeen years a century.

MOUNT ETNA DISTRICT SHAKEN.

Several Strong Earth Shocks Are Felt in Sicily—Houses Damaged.

Catania, Sicily, Oct. 22.—Several strong earth shocks were felt here today, on the slope of Mount Etna. The people at this place, alarmed by the first shocks, rushed out of their houses and camped in the open air. Ten houses fell in the outskirts of Catania, but only one person was killed. The walls of many houses were cracked. The whole Mount Etna region was severely shaken.

RASMUSSEN'S STATEMENT IS VALUABLE AID, SAYS COOK

Brooklyn Doctor Expresses the Belief That the Dane's Opinion Will Silence His Critics.

Toledo, O., Oct. 22.—Dr. Frederick A. Cook's comment on the statement of Knud Rasmussen, the Danish explorer, to the effect that Cook's claim is fully borne out by the information which he secured from the Eskimos, is that it would be a valuable aid to the establishment of proof that he (Cook) discovered the north pole.

Dr. Cook said that Rasmussen's opinion is particularly valuable because he is half-Eskimo himself, speaks the Eskimo language perfectly, thoroughly understands the people and is better able to secure correct information from them than any other scientist or explorer.

Dr. Cook also pointed out the distorted character of the statement. "It is that of a man who had no occasion to defend me," he said. "He is not particularly a friend of mine and has no relation to our expedition. He gathered his information from the Eskimos before he heard from me that I had discovered the north pole."

TRACKED BY ASSASSIN, SHOT.

Man Just Out of Stretcher Hospital Is Wounded Ten Times.

Chicago, Oct. 22.—After an exciting 12-hour chase through the Italian section of the North side, Salvatore Pinello, a section hand in the employ of the Santa Fe railroad at Stretcher, Ill., was caught and shot ten times, probably fatally, last night at Oak street and Milton avenue by two men who he claims are brothers and the same ones who shot him three months ago at Stretcher. He received injuries at that time which kept him in the hospital at Stretcher until last Wednesday.

Knowing that his life was in danger, he hurried to Chicago, after leaving the hospital secretly as he thought, but his enemies were watching his movements closely, and the same train that bore him to this city also carried the two Italians who were commissioned to assassinate him. The men he charged with the attempted murder are Salvatore and Stefano Urdia, brothers, 35 and 28 years of age, who reside at Stretcher.

HOLD-UPS ROB TRAIN FLAGMAN.

Believed They Intended to Rob Passenger But Were Frightened Away.

Chicago, Oct. 22.—One suspect is under arrest, a posse is engaged in a man-hunt in the woods near Harvey, Ill., and detectives from the central station are searching all incoming trains as results of a bold railroad robbery by two masked and armed bandits at Harvey.

The robbers thrust revolvers in the face of John Davidson, train flagman, when an Illinois Central train stopped for water at the railroad station in Harvey and after robbing him it is believed prepared to hold up the passengers.

Before they succeeded in putting their plan into effect they became frightened, fled down the track and disappeared in the woods. They secured from the flagman \$9, a gold watch and chain and a small diamond ring.

NEW FIELDS FOR ROOSEVELTS

Colonel's Party to Hunt in Quasongulish District.

Nairobi, East Africa, Oct. 22.—Col. Roosevelt, Edmund Heller and R. J. Cunningham, the hunter and guide, returned to Nairobi from Nalvaasha. Kermit Roosevelt and Leslie Taiton have gone to Nalvaasha, where they will spend a few days shooting before joining the other members of the party here. The expedition will leave on Monday for the Quasongulish district.

According to present plans the party will return here from Quasongulish and in November hunt in the region of Njoro by Lord Desmure. On December 15 the expedition will proceed to Uganda, arriving at Gondokoro February 15, and continue on to Khartoum, where, according to the schedule, the party should be on March 15.

EDITORS TO FIGHT CANNONISM

Newspaper Men Organize for Campaign Against Aldrich and Cannon.

Spokane, Wash., Oct. 22.—Colonel-dont with the visit of Senator La Follette of Wisconsin to Spokane to uphold Congressman Miles Pollock and to give endorsement generally to the policy of the insurgents in congress, editors of country newspapers throughout eastern Washington organized the Progressive Republican league. About 20 editors and publishers were represented.

The organization is expected later to lead to a state-wide movement in arousing the people against Cannonism and Aldrich.

Later the league may take an active part in the campaign in this state.

Carnegie Gives for Hospital.

Harrisburg, Pa., Oct. 22.—Andrew Carnegie has offered the state, through Health Commissioner Samuel G. Dixon, a tract of 450 acres of land on the crest of the Allegheny mountains, near Croason, to be used in the fight against tuberculosis.

A man who has made considerable money in selling books gives his three essential (or what appears to be) enough money to tell the story in a broadcast way. It is useless to add that he is constantly looking for new schemes, new customers, and does not do a repeat business.

Women are Fast Realizing
That We are Making Genuine Reductions on Our Suits.

It is just the time when hundreds of women are interested in the suit question, and with the enormous showing THE BIG STORE is making and with the daily additions to the stock of the latest novelties in suits, and the live interest the SPECIAL DISCOUNT is creating, we can see stirring times in the Ready-to-wear department for weeks to come.

Out of Town Business
We can afford to make the extra inducements on account of the business it will create, not only in Rock County, but The Big Store's trade area reaches a very long distance in several directions, in some as far as 125 miles. When we say 125 miles, we mean that customers coming from that distance come expressly to trade at The Big Store, not merely happened in. This store is weekly spreading Janesville's name and fame over several counties in Southern Wisconsin and Northern Illinois and is already doing a very important mail order business.

We take this opportunity time to say that any lady or gentlemen may send mail orders here with the assurance that they will get careful and painstaking attention and that the service will be equally as good in every way as though they called personally, and that the Bostwick guarantee is behind every sale made, whether the order comes in by mail or otherwise.

Save Money And Health

Dr. Shoop's Health Coffee goes three times further than real Coffee. To protect and safeguard your health, to get a highly satisfying, wholesome, coffee-like table drink, just make a single test of Dr. Shoop's Health Coffee and find the surprise that actually awaits such a test. Its superior flavor is that of true genuine old Java and Mocha, and yet there is not a single grain of real coffee in it.

And Health Coffee "is made in a minute". No 20 to 30 minutes tedious boiling is necessary at all. Being made from pure toasted grains, malt, nuts, etc., it is truly food-like, healthful and wholesome, and is a splendid safe drink for the children as well.

ROCK-COUNTY GAVE
ITS SHARE AS WELL

Lieut. Colonel J. A. Watrous, Writer
of Wisconsin's Soldier Citizens
of Prominence.

Lieut. Colonel J. A. Watrous, in
writing of Wisconsin's soldier citizens,
names several Rock county men who
rose to prominence in military circles.
His says:
"Five states claim Lieutenant general,
and Wisconsin is one of them. Lieut.
General Arthur MacArthur is an
hundred resident of Milwaukee. The
other Lieutenant general living
near Nelson A. Miles of Massachusetts,
soon to lead a Washington woman to
the altar; Samuel W. H. Young of
Pennsylvania; Adam L. Claiborne of
Ohio; and John H. Bates of Missouri.
The five began their distinguished
careers in the civil war. General
Miles and Claiborne each have a son
in the army and Lieut. General Mac-
Arthur has one in the army and one
in the navy, and all are prominent
officers. MacArthur, Miles and Bates
began as first lieutenants; Miles and
MacArthur as volunteers and Bates
as a regular. Claiborne and Young
began as privates; Young as a volun-
teer, and Claiborne as a regular. The
only other Americans to hold the rank
of Lieutenant general were George
Washington, U. S. Grant, W. T. Sher-
man, P. H. Sheridan, John S. Beho-
man, and Henry C. Corbin, from which
it will be seen that by winning the
high rank Gen. MacArthur brought
honor to Milwaukee and Wisconsin.
Gen. Winfield Scott was bravest Lieu-
tenant general; Major General John
P. Story, who went to West Point
from Walworth county, resides at
Los Angeles, Cal.
"Major General George M. Randall,
who lived at Janesville with his par-
ents when a boy, and won his way
from a private, resides at Cheyenne,
Wyoming.
"Major General Thomas H. Ruger,
who went to West Point from Rock
county, died two years ago.
"Brigadier General Lorenzo W.
Cook, who enlisted from Dodge county
as a private in the Thirtieth regu-
lars, has a fruit farm at Lemon
Grove, Cal., near San Diego. He was
the recruiting officer here in 1898 and
again from 1903 to 1905.
"Brigadier General P. H. Ray, who
enlisted as a private from Waukesha
in the Second Wisconsin, resides at
Youngstown, N. Y. He is a brother
of Charles Ray of Milwaukee.
"Brigadier General Walker T. Da-
gan, who began as a private in the
Milwaukee Zouaves, Fifth Wisconsin,
spends much of his time in Milwau-
kee.
"Brigadier General Charles R. Pous-
sel, a former Milwaukee newsboy, who
was a private in the Zouaves, died at
Minneapolis about two years ago.
"At last accounts, Brigadier General
H. A. Reed, who went from Milwau-
kee in the Twenty-fourth, was at Bar-
celona, Spain, the center of the re-
cent disturbances.
"Brigadier General W. M. Wallace,
a native of Green county, resides at
Chevy Chase, a Washington suburb.
"Brigadier General George A. Wood-
ward, who left Milwaukee in the fif-
teenth, resides in Washington.
"Brigadier General H. L. Hoxie, who
came to Wisconsin to get his wife,
Miss Vinna Beam, the artist, lives in
Washington.
"The present chief quartermaster,
department of the lakes, Lieutenant
Colonel W. W. Johnson, who served
as a private in the Seventh Wiscon-
sin, will retire as a brigadier general
next April and make his home in
Seattle, where he has had property
for many years."

GODFREY HOME WAS
BURNED TO GROUND

Fire on Wednesday Night Destroys
Valuable Farm House in Town
of Lima.
On Wednesday night the house on
the farm of C. B. Godfrey in the
town of Lima, occupied by Alf. West-
rick and family, was totally destroyed
by fire. The fire caught from a chimney
in the kitchen and was not dis-
covered until the men had in-
closed supper and gone to the kitchen
to get milk for the night's milking.
The fire at this time had completely
enveloped the room and made any
fight against the flames of no avail.
The Westrick's lost practically
everything in the house, which not
only included clothing, dishes and fur-
niture, but it was the plan of the
family to lay in the winter's store of
provisions in the fall and this for the
coming winter was destroyed. It in-
cluded flour and sugar. A large quan-
tity of clover seed was also burned.

GREAT RACING PLAY
WAS PRESENTED HERE

Production of "Little Johnny Jones"
Popular With Audience Which
Witnessed It.
Although the play has been
produced here several times before, last
evening's performance of "Little
Johnny Jones" seemed to be quite as
popular with the fair-sized audience
which witnessed it, as any former
production. The songs are well known
to the theatre-going public, but they
were rendered in such a manner last
evening as to still retain their popu-
larity.
Chad Heubner in the title role of
"Little Johnny Jones," the American
jockey, was heartily applauded for
his work. Harry Morton as the "Un-
known," was also popular with the
audience. Vera Edmunds as "Flora-
bella Fly," the "woman newspaper
man," and Amy Mortimer as "Goldie
Gates" won the approval of the au-
dience. Harry Thorpe gave an admi-
rable representation of Timothy D. Mc-
Gen, the New York horse-owner.
The scenic and lighting effects
were well carried out and the singing
and dancing features were excellent.

GRIMM GRANTED TWO
DIVORCES IN MONROE

Two Unhappy Couples Given Legal
Separation—Showman's Case
Continued.
(SPECIAL TO THE GAZETTE.)
Monroe, Wis., Oct. 22.—Cases set
for trial this week in the Green county
circuit court have been disposed of
and Judge Grimm adjourned court un-
til Nov. 22, when six remaining jury
cases will be heard.
Judge Grimm granted two divorces,
one to Mrs. Emma Phillips from Win.
H. Phillips, on the ground of desor-
tion, and the other to Mrs. Elizabeth
Kahn from Louis Kahn, formerly a
barber of this city, for desertion.
The jury sitting in the case of S.
P. Wallace, the Iowa showman, re-
turned a verdict of disagreement, af-
ter deliberating the case for thirteen
hours. At one time the jury stood 3
to 2 in favor of finding Wallace guilty
of simple assault. Judge Grimm re-
duced Wallace's bond from \$1,000 to
\$500. The court announced the con-
tinuance of the case.
The Green county board of su-
perisors will meet at the court house
in this city on Tuesday, November 3,
for the annual session. No impor-
tant matters will be brought up before
the board aside from the regular
routine business. At this meeting
the board will determine the perma-
nent location for the Green county
training school for teachers.
J. H. Dieler is in Chicago on busi-
ness.
John J. Wescott has returned from
a professional trip to Des Moines, Ia.,
in the interests of the Inevitable Elec-
tric Bank Protection company of this
city.
Mrs. J. C. Rankin is here from Phil-
adelphia on a visit to Mrs. W. G.
Dear.
Mr. and Mrs. Adam Hertzwig are
visiting relatives in Chicago this
week.
Harry Keegan and Norman Regez
have gone to Windsor, Done county,
on an auto trip.
John Luchinger attended the an-
nual meeting of the State Historical
society held at Madison.
Mr. and Mrs. Fred Wells are spend-
ing a month with relatives at Red
Wood Falls, Iowa.
Mr. and Mrs. C. R. Schepley are vis-
iting in Milwaukee this week.

BICKNELL CO. WILL
MAKE IMPROVEMENTS

Officials Say Plant Will Be Enlarged
—Have Not Planned to Move
to Beloit.
"I can make no definite statement,"
was the reply of H. S. Bicknell, of the
Bicknell Manufacturing and Supply
company when asked if the report
were true that the company intended
moving the factory to Beloit.
"We have been contemplating some
changes and improvements in the fac-
tory in order to increase our output,
but nothing definite has been decided
upon. With reference to moving to
Beloit, I will say that we have made
no plans. Although we have decided
that it will be necessary to enlarge
and improve our present factory, the
details are still unsettled."

GAME WARDEN WILL
BE NAMED SATURDAY

Three Men Are Certified as Eligible
for Office from Rock
County.
Tomorrow promises to be the field
day for game wardens all over the
state. Chief Game Warden Bickman
is to appoint some fifty of them and
one will be named for Rock county.
In this county he has three names to
select from—W. P. Mason, E. P. Drake
and James Buchanan. All have been
certified to him as having passed the
recent examination held here. For
some time past there has been no
warden in the county, the term of Wil-
liam Draflach having expired. Bick-
man has the names of a hundred and
fifty men to select his fifty deputies
from.
Out of this list Warden Bickman
will make permanent appointments of
twenty wardens, some fifty places in
all being now filled by temporary ap-
pointments. The appointments will
be made at once.
Warden Bickman is somewhat ex-
cited over a report circulating in
Kenosha to the effect that deputy
game wardens have been able to and
eventually to their homes through the
operation of the law which gives to
the informer one-third the fines col-
lected through prosecution of viola-
tors of the game laws.
"Not a warden has been received by
any deputy warden in the state from
this source nor for any other source
arising out of the operation of the
game laws, except such as they are
sharply entitled to as per diem and
allowance," said Mr. Bickman with
much emphasis.

(SPECIAL TO THE GAZETTE.)
Evansville, Oct. 21.—Evansville's
first tag day was a success and the Y.
M. C. A. added about seventy-five dol-
lars to their general fund. Fifteen
young ladies did the tagging and
worked hard for the cause. When
the returns were counted it was found
that Miss Eva Bly had collected the
largest amount.
David Willard-Fuller of Racine will
conduct the services at the First Ba-
ptist church next Sunday.
Charles Johnson has the foundation
nearly completed for a new house,
which he is to build on Almeron
street.
Hugo Raetz of Loyal, Wis., is the
new cashier at the depot and expects
to move his family here soon. He
took the position formerly held by A.
E. Johnson, who resigned to go south.
Harold Lowe was a business visit-
or in Janesville Tuesday.
Vincent North is here from Miles
City, Montana, for a two weeks' visit
with his parents.

WEED NOT CURING
PROPERLY AS YET

Weather Has Not Been Just Right
During Present Month
for Tobacco.
According to the Edgerton Re-
porter the temperature prevailing for
the greater part of October so far has
been much too low to assist in the
satisfactory curing of the hanging to-
bacco crop. Warmer days than those
which do not range much above the
freezing point are necessary to help
out the curing of the late harvested
tobacco. Especially green cut toba-
cco makes but little progress under
such conditions, and unless milder
weather is yet to come there is a
greater danger from fat stems than
was anticipated a few weeks ago.
There may be warm Indian summer
days yet in store for us, to relieve
any anxiety growers may entertain
for similar reasons, the stripping of
the early crops may have to be post-
poned beyond the usual dates be-
cause of the slow curing of the stems.
Little can be gained by removing a
crop from the poles, until the midrib
is thoroughly cured out, for the mole-
sture of the stem is absorbed by the
leaf after being placed in the bundle
and high case leaf is the consequence.
One of the most difficult problems the
grower has to contend with is how to
treat the high case and heavy stems
that frequently reach the warehouse
largely through neglect or ineptness
of the grower. The consequences
that developed from the '06 crop have
not been forgotten.
To all outward appearances the
curing of the new crop is entirely un-
satisfactory for the time being. A brief
season of curing weather this week
has given an opportunity to ascertain
how the curing is progressing, and it
may disclose whether any injury has
come to the hanging crop from the
recent freezing. Old leaf in growers'
hands is still being hunted and quite
freely marketed.
The market for cured leaf is surely
slacking up. Several out-of-town buy-
ers have visited the state and a num-
ber of false-sized transactions have re-
sulted. The call is largely for the '08,
though exporters are searching the
market for any class of goods that
can be found to meet their ideas re-
cending prices. The 400-cases packing
of '08 of T. E. Welch is sold to an
eastern manufacturer. A. N. Jones
reports the sale of 125 cases of '08
and 85 cases of '06 for the week. An-
other lot of low grades from the En-
glish holdings, about 300 cases, is said
to have been sold to an exporter.
Smuggling of the '08 packings is now
well under way and packers find very
little if any damage resulting. The
tobacco is coming through the sweat
the roughest for some years past.
The shipments out of storage reach
100 cases from this market to all
points for the week.

THEY GROW HAIR

Certain Ingredients If Properly
Combined, Stimulate Human
Hair Growth.
Reoscin is one of the most ef-
fective germ destroyers ever dis-
covered. Betanaphthol is a most
powerful, yet absolutely safe germi-
cide and antiseptic, which prevents
development of germ matter, and
creates a clean, healthy condition.
Floerapine, though not a color-
ing matter or dye, is an ingredient
well established for its power to re-
store natural color to human hair.
Borax, because of its well-defined
softening and cleansing properties, is
most useful in the treatment of scalp
and hair diseases. Glycerine acts as
a stimulant to the hair bulbs, and has
a soothing, healing and nourishing
influence. Alcohol is indispensable in
medicine because of its antiseptic,
stimulating and preservative qualities.
Reoscin "33" Hair Tonic is chiefly
composed of these ingredients, which
are compounded in a peculiar form,
and we believe it is the most effective
remedy known to medical science for
scalp and hair troubles generally.
We personally guarantee it to erad-
icate dandruff and scalp irritations and
to grow hair, even though the scalp
in spots is bare of hair, providing
of course there is life and vitality
remaining in the hair roots.
We want every one troubled with
scalp disease, dandruff or loss of hair
to try Reoscin "33" Hair Tonic. If it
does not remove dandruff and pro-
mote a growth of hair to the satis-
faction of the user, we will without
question or quibble return every
cent paid us for it. This guarantee
is printed on every package. It has
secured most satisfactory results in
93 out of 100 cases where put to a
practical test.
Reoscin "33" Hair Tonic is entirely
unlike and in every particular dif-
ferent from anything else we know of
for the purpose for which it is recom-
mended. We urge you to try it at
our entire risk. Certainly we could
offer no better guarantee. Two sizes,
50c cents and \$1.00. Sold in Janes-
ville only at our store—The Rexall
Store, The Smith Drug Co.

DEPENDABLE PROPRIETARY
MEDICINES.

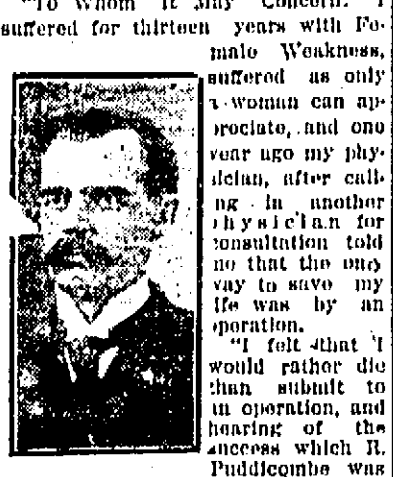

It must be admitted by every fair-

medicine could not live and grow in
popularity for thirty years, and today
hold a record for thousands upon
thousands of actual cures, as has
Lydia E. Pinkham's Vegetable Com-

AMERICAN ICE CO. ON TRIAL IN NEW YORK

Is Charged with Violating State Anti-Monopoly Law—Case Will Continue for Weeks.

New York, Oct. 22.—Charged with violating the state anti-monopoly law the prosecution of the American Ice Company, the largest dealer in ice in the world, began in the criminal branch of the supreme court before Justice Charles H. Wheeler.

Deputy Attorney General Roger Clark, in his opening address, declared that "everything short of physical violence which the diabolical ingenuity of man could invent was employed by this corporation to build up a monopoly of the ice business." He said the American Ice Company had repeatedly refused to harvest ice in its Maine fields in order to create a scarcity of ice and to raise the price in New York city.

The idea for the organization of the combine, he continued, originated with Charles W. Morse.

The trial will continue for several weeks.

Progress of "Florida."

Such rapid progress has been made on the Florida that she will probably undergo her trials during the next two months. Special interest attaches to this vessel because of the fact that she is the first of the "Dreadnaughts" designed specifically as such for our navy, and the first of our battle-ships to be driven by turbine engines. The South Carolina and Michigan of 16,000 tons, although they carry a "Dreadnaught" armament, were originally designed to be of the Coast-defense type.

THEATRE

Realism is the one essential feature that leads to the success of every play. If any proof of this were needed it is to be found just now in abundance in the Clyde Fitch play, "Girls," which Sam S. and Lee Shubert have given such a magnificent production and sent on tour after its successful run at Daly's theatre, New York. What over Mr. Fitch's faults, if any, may ways surprising and delightful. When his girls modestly retire to the folding bed, the couch and the Morris chair, respectively, settling down for slumber, there is a sudden diabolical thumping on the screen pipes—a little thing, but how painful—ly real to every flat dweller in the audience. The comic effect of this single small touch of observation is surprisingly large. Again, the hero builds a bridge across the air shaft seen the skylight at the bottom. And to those in the audience comes the picture, too, and you actually feel that the room on the stage must be four stories up. The illusion is perfect. You are delighted to have your imagination stirred and help the playwright build his scene. When Mr. Fitch sends one of his girls out for provisions the audience has observed what girls out on such occasions, a titter runs through the audience as the

be, lack of observation is not one of with a blind—a patent bridge for cliff them. He goes through life with his dwellers, he calls it, hitting off the eyes open. His men and women are unholly existence of people who live not forever doing the same old things, in crowded flats in large cities. And saying the same old words, trotting the blind falls down—it doesn't fall out the same old pack of tricks. They but a few feet to the stage. You hear do things, they say things, which re, it bumping from side to side down all fleet the life around us and in a four stories that are supposed to be thousand little ways imitate Mr. Fitch's there and then comes the crush of dramas with actualities. Thus the broken glass. Mr. Fitch has looked surface texture of a Fitch play is all into these flat house airshafts and packages are undone. Somebody is being hit here! Then there are the hair pins in the match box, and the funny little confectionery bride atop the wedding cake. These and much more show the little bits of detail that have made Mr. Fitch and his plays famous.

The Difference Shows in the Baking

A GREAT many women have an idea that flour is all just about alike. That the flour you get used to is the one you like best and have the best "luck" with— That is because they have never used

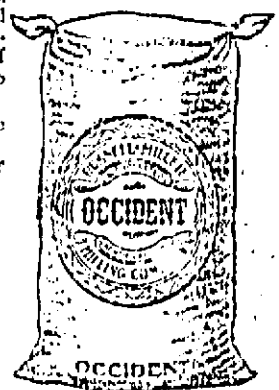

OCCIDENT FLOUR

They don't know the gulf between Occident and ordinary flours— A difference that shows plainly in the baking. The price of Occident Flour is a few cents higher per sack than ordinary kinds. That means nothing to you after you have proven on baking day how well it is worth that difference. But it means everything to the millers. That few cents difference enables them to raise the standard of Occident Flour to "highest grade in the world"—from wheat to packages. The millers prove that before Occident Flour leaves the mill. You find it out when you use Occident for your baked stuff. Try it and judge it by results.

Here is the Fairest Trial Offer Ever Made

Use one sack of Occident Flour in your baking. That is better than reams of printed argument. If it is not your kind, it costs you nothing. Order a trial sack of Occident from your grocer. Bake out of it as many times as you please— Before that sack is gone, you will be convinced that Occident suits you better in every way than any other flour you ever used— Better for pastry, muffins, biscuit, bread—better and surer results with all kinds of baked stuff. If not—you have only to go to the grocer and tell him so. He is authorized to refund without argument the full purchase price of any package of Occident Flour which you do not find satisfactory. There couldn't be a more liberal offer than that—could there? Why not order it in time for your next baking.

sugar beets—the average yield per acre being more than any other non-irrigated state.

Ten Years to Pay

Other land in the Middle West, with the same soil and climate, is selling for from \$100 to \$150 an acre. But this enormous tract of half a million acres—stripped of its timber now—is thrown on the market at \$6 to \$20 an acre.

You need pay only one-third down and the rest within ten years. For \$100 you can buy eighty acres of good \$15 land, paying \$5 an acre down and the balance later as the crops come in.

"Joe,"

"Well, I think—"

"That's enough of that!"

"Oh, well," he declared sullenly, turning away and dropping into a chair. "I didn't mean—"

She followed him and placed her hand on his shoulder.

"Joe, I married you because I loved you," she said gently, "and for nothing else in the world. There wasn't any influence except that, and that overcame all the rest—mother and all of them."

"I know all about that."

"There has been a little hard luck—"

"There has been a precious sight too much of it."

"I know you haven't been treated right, but had luck and ups and downs are what a woman ought to expect when she marries. She has to take the bad as well as the good, and she ought to know enough to accept the one as cheerfully as the other when the bad is nobody's fault. That is

coaxing, could not wear him," she said, pressing her cheek more closely to his and fondling him, but he jerked away from her embrace and sullenly sought another chair.

As he did so the bell rang from downstairs.

"It's that Jimmy now," he muttered.

Much hurt, but disguising her feelings, Emma hurried into the kitchen and pressed the button that opened the entrance door of the house.

CHAPTER IV.

THERE was a knock, the unlatched door opened, and James Smith walked in.

"Anybody at home?" he demanded briskly.

"Not a solitary living soul," Emma answered him. "Come in."

"Hello, Joe! You a dead one, too?" he asked.

"Almost," replied Brooks, brightening up a little in spite of himself under the influence of his friend's good natured smile and cheerfulness that positively emanated from him. "Just come up?"

"Yes, and I reckon in about time to help," he said, glancing at the clock on the table.

"Just in time," assented Emma, whose drooping spirits also began to rise under the diversion caused by his advent. "But first explain what you mean by not coming to dinner."

"I couldn't come, really, I tried my best, but I had to attend to such a lot of business that couldn't be put off that I was unable to get here in time. I hope you didn't wait long for me, I'm awfully sorry."

"You look it—I don't think," she smiled. "Go on; get busy if you're going to."

"All right," he answered, taking up a small pile of cups and saucers very gingerly. "Where do these go? If you left it to me, like as not I'd be putting a soup plate behind the door and slip a broom into the sideboard."

"They go right in here."

He stopped on the way to the sideboard and turned to Brooks.

"Seen the latest extra, Joe?" he inquired. "The Orinoco wasn't hardly scratched getting out of Rio Janeiro."

"You don't say?"

"Kind of scraped over the bar. She'll only be a day late now."

"Do be careful with those cups, Jimmy," admonished Emma. "They're china."

"Don't you suppose I know that?"

"I mean real china," she emphasized.

"All china and Chinamen look alike to me. Here's the paper, Joe. You'll find all about the Orinoco on the inside page."

He drew it from his pocket, and as he did so one of the cups balanced on the saucers slipped off and smashed to bits on the carpet.

"Now, Jimmy, you certainly are going to get it," commented Joe, rising and taking the paper extended to him.

Smith looked apprehensively at his hostess.

"Jimmy," she chided, assuming an expression of mock gravity, "how could you—my very best Sunday go to meeting chit! How could you?"

"Not how could I—how did I?" he corrected, stooping and picking up the pieces. "You know, Emma, I've had butter fingers ever since I was a little shaver, and I guess I always will have—in business and everything else."

"Why, how do you mean?"

"I've been clumsy all my life, that's all. Everything I've ever had in my hands that was worth much I've generally lost and fall. Out in Colorado when I was a kid around Leavenworth they used to say that I sure would turn out to be a snowed off and hammered down, good for nothing man. So you see the way things have turned out. I've broken about even with that prophecy."

"How broken even?"

"Taking their side for the book, I with the first bet and lose the second. There ain't nothing saved off and hammered down about me, is there?"

"I should say not," she said, with a merry laugh. "You've been pulled out like a piece of taffy."

"Then I win, but it was in doubt quite some time. Never really did start to grow until I was fifteen, and then I just came out into my present attitude. But the second proposition—that good for nothing bet—I guess they win."

"Nonsense, Jimmy. How can you say such a thing? You're good for a whole lot."

"Emma," he declared solemnly, "there have been moments of financial stringency when that declaration seemed to be open to doubt."

"Jimmy, you're an idiot!" she laughed.

"Discovered!" he avowed, bowing ceremoniously.

Brooks, who had been reading the paper, threw it down angrily.

"Don't him!" he growled.

"Joe!" exclaimed his wife reproachfully.

"Don't who?" inquired Smith.

"Why, Williams," he replied.

"Lola have done that," said the superintendent. "But what's the matter now, Joe?"

"His luck," went on Brooks. "The Orinoco isn't scratched. If any one else owned a ship and she got into a muss like that the chances are a hundred to one that she'd have foundered—been a complete loss."

"That's right," assented Smith.

"But Williams—he don't lose her. He couldn't."

"I should think you'd be glad," Emma

marked Emma. "She's a brand new ship, isn't she?"

"No, I'm not glad," he declared furiously, rising and walking about the room. "I'm tired of him, of his rotten old steamship line, of all of it—you hear? Of all of it!"

"Joe, please!" she protested. "You know I—"

"I know you've slaved and bled with me long enough! Here I am—handling all the money of that line, and it's not so, Jimmy?"

"That's right," admitted the latter.

"But what's the matter?"

"Matter? Isn't it matter enough that I should do all this for a mean, miserable living? I suffer and work, and work and suffer, for that nasty, cowardly salary and this beast, this wild animal of a Williams, keeps us all starving—yes, starving! Don't I deserve something a little better? Do you know what I could do? I could steal thousands, and no one would ever know it!"

"Joe!" she ejaculated, greatly shocked.

"Oh, I'm not going to do it; but, with all this responsibility, when I ask for money I don't get it—not a dollar. You do, Jimmy; you're single and you can quit. And then Williams—what does he do? Comes around here with my wife with my mother-in-law—d-n him—and rubs it in."

Emma looked at him pleadingly.

"Joe, you mustn't. Captain Williams means well, but—"

He turned upon her savagely.

"That's it—he means well. He meant well when he was a south Pacific trader. He meant well when he treated his crew like dogs. He meant well when he'd kill a sailor with as much thought as a spider kills a fly. He meant well when he cheated natives, murdered men, smuggled Chinese men into this country, sunk vessels for insurance. He meant well when he came east, bought the Latin-American company and put your father out of business, and now—now that he has his money, his millions maybe, he means well when he refuses to give his men a fair share of what they produce. Means well? Yes, he does—well!"

"Joe, are you crazy?" demanded his wife, alarmed and a little angry at his outburst.

"Well, there's a whole lot of truth in what Joe says," put in Smith conciliatingly. "You see, Williams did start out as a captain of a south Pacific trader, but, like most of them fellows, I guess he stole a good deal more than he traded. He had the reputation of being the strangest man on the coast or in the tropics—could break a man's arm with as much ease as you'd snap a straw. He's harsh, Williams is—harsh! When he came east he got control of the Latin-American. He loved money, and he got it—most any way he could. Yes, Joe ought to have more, that's sure. He ought to have more."

"You know I should," went on Brooks, somewhat mollified by his friend's acquiescence and support and drawing a bulky pocketbook from the inside pocket of his waistcoat. "I've got control of all the money of the company. That's my job. Why, here, this alone is the afternoon collection, too late to put in the safe, nearly \$3,000, more than twice as much as I get in a year. I could take it all and then not be caught or at least not for months, but—"

"Why, Joe, I'm surprised!" his wife broke in.

"Of course Joe wouldn't take a cent that don't belong to him," said Smith. "I know that. Williams does too. So I guess he figures him safe and don't see the least bit of use in paying him more."

There's a Sincerity overcoat for every sort of climate. Your dealer has chosen fabrics heavy enough for any local weather—thick, firm cloths, which good tailoring has rendered shapely at lapel and collar and shoulder, without burdening the garment with bulk and padding.

Your undercoat can't show above a Sincerity great coat. It won't work away later on, because it has been felled by hand, to keep precisely as you find it the day you buy it. Plenty of fancy materials, and young men have a bountiful choice of extreme ideas; for their elders, there are plainer and simpler models.

The retailer is glad to leave in the Sincerity label; it lightens his personal responsibility; it stands for stability; it means that the makers are back of the wear and guarantees thereby that wear is ahead of the purchase.

Many prices, but no quality below safety—otherwise there'd be no label. The best shop in town is the most likely place to find them.

Electropodes

Do Wonders For Stomach

Remarkable Electric Device To Produce Wireless Current That Quickly Restores Diseased Stomach and Other Organs.

A Real Treatment for Rheumatism.

We want to call the attention of our readers to a remarkable electric device which has been developed by a scientist, and to have produced positive wonder to those who have used it. This new invention is called Electropodes, which comes in pairs—both producing and receiving current throughout the entire body, permeating the vital organs, purifying and correcting diseased conditions, regulating the vital functions, and strengthening the nerves almost beyond description.

It proves at last that electricity is not only life, but health, and vigor, and power. It has already produced astonishing results in Stomach and Liver Troubles, Kidney Complaints, Back Pain, Lumbago, Insomnia, Weak Heart, Rheumatism, Nervous Prostration, Neuralgia and Weak Nerves.

These results are not fanciful, but already proven. For those who have relied on medicines for curing the above diseases, these Electropodes come as a distinct revelation.

Those who wear them report an incredible new feeling of glow and health to every organ, the nerves, and the body. Nothing like it has ever been found.

Electropodes are peculiar metallic footcases in appearance, insulated and so placed in the heels of the shoes as to be unnoticeable to the wearer. They are never uncomfortable; indeed, were it not for the glow of energy and health you would never know you had them on. They are different from any other electric device in that they produce a current only when in actual use. Electropodes have already been distributed so that you can now get them at a pair to store at \$1.00 a pair. To prove to you that they do the wonderful things claimed for them, the druggist signs a legal binding contract that if you are not perfectly satisfied, for them, the money will be refunded.

If your druggist should not have Electropodes on hand, send \$1.00 for a pair to The Electropode Company, Suite 10, Flat 10, The Electric Building, 100 N. La Salle St., Chicago, Ill., and they will send you the same 30 days trial, with our contract signed by the manufacturer, and you, of course, will be completely satisfied. We positively refund your money, and also the interesting story of how Electropodes heal, no matter where the trouble is located. Say whether for lady or gentleman.

The Terrible Itching, Burning, Disfigurement, Humiliation of ECZEMA

BANISHED OR NO PAY.

Escaped a Slow and Horrible Death. No one could have suffered more than Thos. F. Breck, 55 Willard Street, Hartford, Conn. He did so and was entirely cured in a short time. Sold by Smith Drug Co., Janesville, Wis.

Hay's Hair Health

GRAY HAIR HANDICAPS YOU IN BUSINESS AND OTHER THINGS. GET RID OF IT, RIGHT AWAY.

Gray hair is an unnatural disfigurement, it is your duty to yourself and your friends to get rid of it as soon as possible. It is a serious injury to you in your social and business life. Get rid of it, by all means, but don't try to do so by the use of dyes, whose effect is but temporary and unsatisfactory and which may permanently injure your hair.

Use Hay's Hair Health and look young. It isn't a dye—it won't injure your hair and nobody will know you are using it. It quickly and unfailingly restores the natural color and beauty of the hair—brings back its youth, luster, softness and brilliant luxuriance. \$1 and 50c. Bottles, at Druggists.
